

## Super strong double-sided adhesive tape for repair

# PETACKY

### Petacks Tape series

- 1 Just apply this adhesive tape on a fabric on hand. The fabric can be used as a repair tape instantly.
- 2 Repair for transparent materials etc.  
Note: The transparent material repaired by this tape does not become transparent.
- 3 Easily repairable on site. Must-have item in your tool box.
- 4 For temporary fixing of the fabric etc before screw mounting or nailing.

Standard product size etc ① 14cm x 25m (5.5" x 27 yard), 6 pcs in a carton ② 5cm x 25m (2" x 27 yard), 18 pcs in a carton ③ 3cm x 25m (1" x 27 yard), 30 pcs in a carton

※ Custom width is available.

< How to use > Best for repairing and bonding tent fabric and sheet

1.

Prepare this tape and extra sheet.

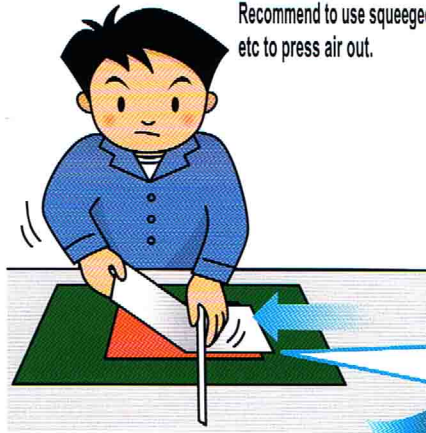

Measure the repair area, and cut the tape and the sheet into a size larger than the repair area.

2.

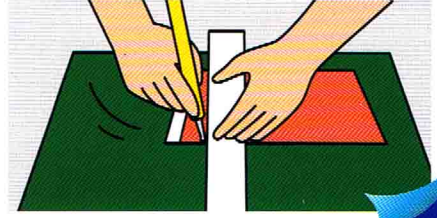

Apply the tape to the sheet on the flat table.

Recommend to use squeegee etc to press air out.

3.

Cut off the excess tape.

GOOD

Most of the air was pushed out

NO GOOD

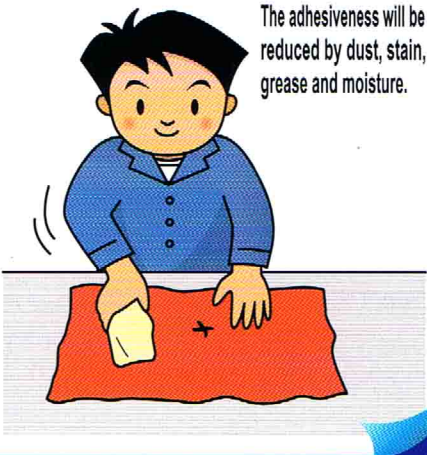

Air inside will reduce the adhesiveness

4.

Clean up the repair area.

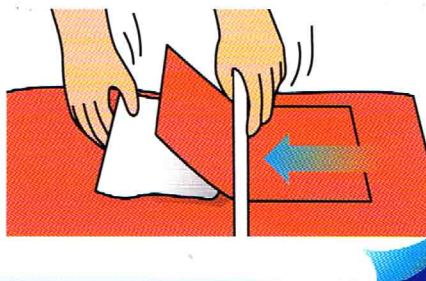

The adhesiveness will be reduced by dust, stain, grease and moisture.

5.

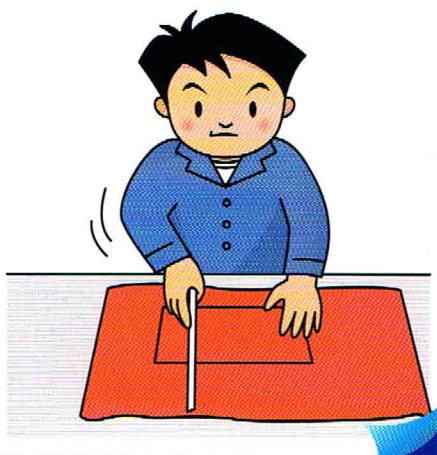

Apply it to the repair area, removing the release paper.

Recommend to use squeegee etc to press air out. After application, check from the back side if the repair area is properly covered.

6.

Apply it from the other side, too.

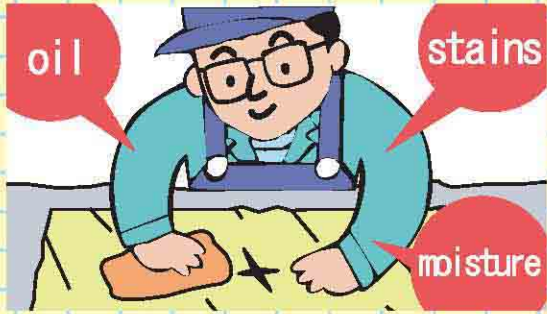

Super-Strong • Water-Proof  
ALL-weather Self adhesive Tape

# PETACKS®

## How to use

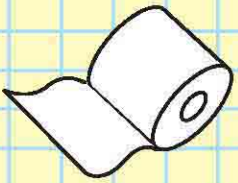

To repair

- Truck canvas
- Awning
- Storage sheet
- Protection sheet

① Clean the surface of object...

② Peel off the release-paper...

Standard size

Roll : 14 cm x 25 m (5.5" x 27 yds)

Special widths are available.
