

WELDING CURTAIN / SCREEN

SGS

EN 25980

Welding Curtain/Screen is made of special 0.4mm/0.6mm thick Vinyl. It conforms to EN 1598 Standard.

Features: Filters 100% of far/near U.V. radiation and blue light. Disperses Arc image and allow light back into work area. Flame-retardant, water-proof and abrasion-resistant.

Application: Provides optical protection when visibility is required for the casual viewer or passerby. It can be fixed on the metal frame or be hung on orbit to form a flexible welding screen

XU-2309 XU-2312

GOLD(YELLOW) WELDING SCREEN/CURTAIN

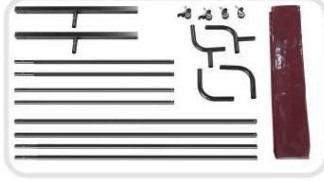

Materials: Especial Gold (yellow) vinyl.
 Properties: Offering good visibility
 middle UV bright light resistant.
 Application: Low-to-medium amperage welding protection,
 disperse light from welding arcs.
 Size: 1.74 × 1.74m; 1.74 × 2.34m; 1 × 1 ~ 10 × 10m; 1.81 × 55m

XU-114 XU-107-2
XU-2308 XU-2311

DARK RED WELDING SCREEN/CURTAIN

Materials: Especial dark red Vinyl.
 Properties: Middle UV bright light resistant.
 Proper light refraction and minimizes the arc glare.
 Application: to create a safer working environment for welder and
 surrounding workers.
 Size: 1.74 × 1.74m; 1.74 × 2.34m; 1 × 1 ~ 10 × 10m; 1.81 × 55m

XU-114 XU-107-2 XU-2307

GREEN TRANSLUCENT WELDING SCREEN /CURTAIN

Materials: Especial green translucent vinyl.
 Properties: high UV radiation and blue light resistant.
 Application: Darkened the light for surrounding welding
 workers, recommended for medium-high
 amperage welding application.
 Size: 1.74 × 1.74m; 1.74 × 2.34m; 1 × 1 ~ 10 × 10m; 1.81 × 55m

WELDING SCREEN / ROLL

XU-114 XU-2013 XU-2310

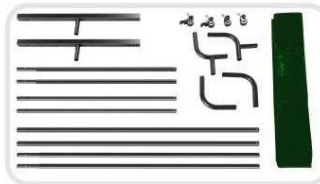

DARK GREEN WELDING SCREEN/CURTAIN

Materials: Especial Dark Green Vinyl.

Properties: stop all UV radiation and blue bright light, durability.

Application: for plasma cutting or light welding protection.

Size: 1.74 x 1.74m; 1.74 x 2.34m; 1 x 1 ~ 10 x 10m; 1.81 x 55m

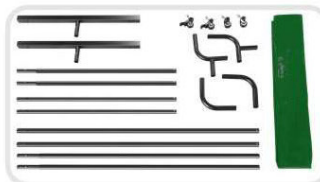

XU-114 XU-107-2

DARK GREEN WELDING SCREEN/CURTAIN

Extra dark green vinyl can block off all UV radiation and blue light.

It is designed for durability, strength and resistance to tearing and ripping.

XU-114 XU-107-2

BLUE WELDING SCREEN /CURTAIN

Blue See-Thru Vinyl offering good visibility and allows excellent supervision in a bright work environment while this color curtain offers top-notch protection from U.V. Radiation and blue light.

3 Panels Welding Curtain

Material: Flame-resistant vinyl

Size: Customized

Color: dark green, dark red, yellow etc.

Application: Provide bystanders both observability and eye protection from harmful rays and sparks while you are welding. Quite suitable for welding workshop, automobile inspection, shipyard, and other industrial places where welding sparks, spatter, and flash could happen.

XU-114 XU-107-2

DARK GREEN WELDING SCREEN/CURTAIN

Extra dark green vinyl can block off all UV radiation and blue light.

It is designed for durability, strength and resistance to tearing and ripping.

XU-114 XU-107-2

BLUE WELDING SCREEN /CURTAIN

Blue See-Thru Vinyl offering good visibility and allows excellent supervision in a bright work environment while this color curtain offers top-notch protection from U.V. Radiation and blue light.

WELDING SCREEN / ROLL

XU-114 XU-107-2

FOLDABLE WELDING CURTAIN

Material: Flame-resistant vinyl

Size: Customized

Color: dark green, dark red, yellow etc.

Application: Provide bystanders both observability and eye protection from harmful rays and sparks while you are welding. Quite suitable for welding workshop, automobile inspection, shipyard, and other industrial places where welding sparks, spatter, and flash could happen.

XU-114 XU-107-2

RETRACTABLE WELDING CURTAIN

Offering good visibility and allows excellent supervision in a bright work environment while this color curtain offers top-notch protection from U.V. Radiation and blue light.

Color: yellow, red, green, blue, black, clear etc.

XU-114 XU-107-2

PVC STRIP CURTAIN

Block off all UV radiation and blue light.

It is designed for durability, strength and resistance to tearing and ripping.

Color: red, green, blue, yellow, black, clear etc.

XU-117 XU-2319 XU-2320

Welding Blanket w/Transparent Window

Material: Glass fiber fabric , Flame-resistant vinyl

Size: Customized

Color: white, black, brown, blue, rust red, orange, gray etc.

Application: Provide excellent protection from sparks, as well as harmful UV rays and radiation. It is convenient to observe the operation through the visible window.

XU-114 XU-107-2

WELDING CURTAIN

Customized curtain minimizes the arc glare better than anyother transparent welding curtain while reflecting harmful light back into the work area.

XU-116

Foldable Welding Curtain

Material: Flame-resistant vinyl

Size: Customized

Color:dark green, dark red, yellow etc.

Application: Provide bystanders both observability and eye protection from harmful rays and sparks while you are welding. Quite suitable for welding workshop, automobile inspection, shipyard, and other industrial places where welding sparks, spatter, and flash could happen.

WELDING SCREEN / ROLL

XU-114

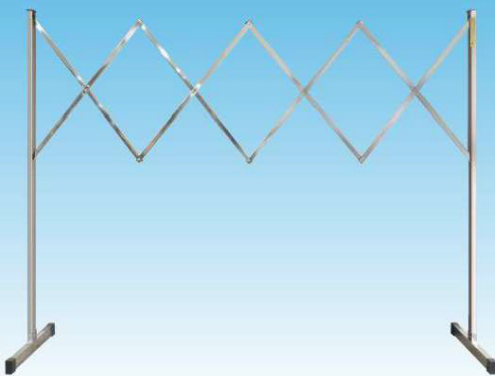

Foldable Welding Curtain

Material: Flame-resistant vinyl

Size: Customized

Color: dark green, dark red, yellow etc.

Application: Provide bystanders both observability and eye protection from harmful rays and sparks while you are welding. Quite suitable for welding workshop, automobile inspection, shipyard, and other industrial places where welding sparks, spatter, and flash could happen.

XU-114

Foldable Welding Curtain

Material: Flame-resistant vinyl
Size: Customized
Color: dark green, dark red, yellow etc.
Application: Provide bystanders both observability and eye protection from harmful rays and sparks while you are welding. Quite suitable for welding workshop, automobile inspection, shipyard, and other industrial places where welding sparks, spatter, and flash could happen.
